These Initial Teacher Education course manuals were developed by a team consisting of members from Colleges of Education and four universities namely the University of Ghana, Kwame Nkrumah University of Science and Technology, University of Education, Winneba, and University for Development Studies. This team was originally constituted by the National Council for Tertiary Education (now the Ghana Tertiary Education Commission) in 2019 to support the delivery of the new B.Ed. curriculum with assistance from T-TEL and UK Aid. The revision, finalization and printing of these manuals took place in 2021 with support from T-TEL and Mastercard Foundation.

The course manuals have been produced for use as general guides for the delivery of the new four-year B.Ed. curriculum in Colleges of Education in collaboration with their affiliated universities. They are designed to support student teachers, tutors, and lecturers in delivering a complete B.Ed. course for training student teachers which meets the requirements of the National Teachers’ Standards, enabling them to teach effectively in basic schools.

The first section of the manuals is focused on the course information and vision for the B.Ed. curriculum. The second section presents the course details, goal for the subject or learning area, course description, key contextual factors as well as core and transferable skills and cross-cutting issues, including equity and inclusion. The third section is a list of course learning outcomes and their related learning indicators. The fourth section presents the course content which is broken down into units for each week, the topic and sub-strands and their related teaching and learning activities to achieve the learning outcomes and the teaching and learning strategies. This is followed by course assessment components in section five. Each manual contains a list of required reading and references as well as teaching and learning resources. The final section presents course related professional development for tutors and lecturers to be able to use each section of the manual.

Field instructions to guide Supported Teaching in School are integrated into the course manuals to provide the student teacher with guidance in developing teaching throughout the entire period of study to be able to meet the requirements of the National Teachers’ Standards (NTS) and the National Teacher Education Curriculum Framework (NTECF). To ensure maximum benefit the course manuals should be used in addition to other resources such as the NTS, NTCEF, National Teacher Education & Assessment Policy and the National Teacher Education Gender Equality and Social Inclusion (GESI) Strategy and Action Plan. This will help to ensure that student teachers’ learning is integrated within the wider teacher education policy framework.

Professor Mohammed Salifu
Director General, Ghana Tertiary Education Commission
ACKNOWLEDGEMENTS

The course manuals were developed through the collaborative efforts of a team of individuals from Colleges of Education, University of Ghana, Kwame Nkrumah University of Science and Technology, University of Education, Winneba, and University for Development Studies. They were produced in association with the Ghana Tertiary Education Commission of the Ministry of Education, Ghana.

A participatory team approach was used to produce this set of resources for tutors/lecturers, mentors, and student teachers. We are grateful to the specialists who contributed their knowledge and expertise.

Special thanks to Professor Jophus Anamuah-Mensah - T-TEL Key Advisor, Dr. Eric Daniel Ananga - T-TEL Key Advisor for Curriculum reform and Beatrice Noble-Rogers who provided key editorial, review and content input and facilitated the process of drafting and finalising the course manual.

Patricia Appiah-Boateng and Gameli Samuel Hahomene, served as typesetting and formatting coordinators and designed and produced the illustrations, tables, and other graphics which appear in the pages. They spent time and effort designing and redesigning the graphic layout and producing the camera-ready copy resulting in a set of materials that are easy to use, read, and reference.

Thanks also goes to all T-Tel staff members who worked to support production of these course manuals, particularly Beryl Opong-Agyei and Gideon Okai. Their frankness and co-operative attitude complimented the team approach used to produce this manual.

We are indebted to the Ministry of Education and the Ghana Tertiary Education Commission (GTEC) for the general support and specific helpful advice provided during production of the course manuals. Recognition and thanks must go to Chief Technical Advisor for T-TEL and Policy Advisor to the National Education Reform Secretariat, Akwasi Addae-Boahene, Prof. Mohammed Salifu, the Director General of GTEC and Mr. Jerry Sarfo the coordinator for the colleges of education, who in diverse ways supported during the course manual writing workshops.

In addition to all the staff who participated visibly in the development of these materials we would like to acknowledge all those people from the many colleges of education and universities in which we have worked who have, directly or indirectly, shared their views on the curriculum with us.

INTRODUCTION TO COURSE MANUALS

Welcome to this B.Ed. Course manual.

Following the accreditation of the B.Ed. by the national accreditation Board with its recognition as a world class teacher education curriculum, the decision was taken to support effective implementation through the development of course manuals. The course manuals provide tutors and lecturers with the materials necessary to support teaching each of the B.Ed. courses. The manuals adhere directly to, and emphasise, the principles and standards set out in the NTS, NTECF and in the B.Ed. and will help ensure operationalising the Government’s teacher education reform Policy.

The manuals serve the following purposes:

• they are the key educational agreements between the training institution and the student teachers. In this way student teachers know what the expectations are for them and for the training they will receive.

• they lay out the course outcomes, content, strategies, and assessment, thereby providing direction to and consistency in training and B.Ed. implementation among tutors across the country.

• they are explicit documents that provide other institutions with information on which to base transfer/articulation decisions.

Specifically, they also:

• support coherent lesson planning and teaching which will enable student teachers to achieve the NTS and become good teachers who ensure all pupils’ learning whilst offering tutors the flexibility for adaptation for local needs and contexts.

• Provide a lesson by lesson overview of the course, building on and developing the material in the course specifications.

• Inform tutors, student teachers and others working with student teachers about:
  1. What is to be taught and why.
  2. how it can be taught.
  3. how it should be assessed.

• Provide opportunities for student teachers to develop and apply knowledge during supported teaching in school, creating a strong bond between learning in school and in the training institution.

• Reflect the stage of student teacher development, set out in the model for progress across the four years of the B.Ed.

• Can be used as self-study tools by student teachers.

• Ensure that all information necessary to inform teacher training is in one place (serves as reference document).

• The manuals are the basis of the codes and university professional development sessions to ensure Principals, tutors, lecturers and heads of department are fully familiar with the details of: courses, outcomes, content, approaches, assessments and lessons.
Who are course manuals for:

- College of Education Tutors
- Teacher Education University Lecturers
- Student Teachers
- Mentors and Lead Mentors
- All Those with An Interested In Teacher Education.
USING THIS MANUAL

Writers of the manuals engaged widely with colleagues in each subject area at each stage of development. Besides, writers envisaged themselves in varied contexts as they wrote, to suggest methodologies and strategies for teaching the strands which would ensure student teachers are enabled to achieve the learning outcomes. In view of our commitment to creativity, problem solving, collaboration and to lifelong learning, we expect that individual tutors will “own” their manuals and become user-developers. Lessons in the manuals will be strands for weekly Pd meetings where tutors/lecturers will situate the lessons in the contexts of their colleges and their student teachers, to maximize the benefits.

It is also expected that tutors will model the best pedagogic practices for student teachers. Key among such practices is the communication of the importance of having a personal teaching philosophy. We expect that tutors and lecturers will explicitly communicate their personal teaching philosophies to their student teachers during the first meeting of every course. In preparation for this, we suggest you set out your personal teaching philosophy and how it will be demonstrated in your teaching using, or adapting, the sample sentence introductions below.

My teaching philosophy is ........................................................................................................................................

In view of this philosophy, I will facilitate this course by/through ......................................................................

**Pre-requisite**
Student teachers have had varying experiences during STS which would have exposed them to various school administration and management practices.

**Course Delivery Modes**
- Face-to-face: [✓]
- Practical Activity: [✓]
- Work-Based Learning: [✓]
- Seminars: [✓]
- Independent Study: [✓]
- E-Learning: [✓]
- Practicum: [✓]

**Course Description for significant learning (indicate NTS, NTECF, BSC GLE to be addressed)**
The course is designed to expose student teachers to the conceptual, theoretical, and practical issues in basic school administration and management with special reference to Ghana. It examines the meanings and purposes of basic school administration and management and the specific duties of the basic school headteacher. The course seeks to help student teachers to understand and apply the principles of the various schools of administrative thought and assist student teachers to understand and apply concepts and issues in leadership including gender and inclusivity to ensure effective administration of basic schools. It seeks to provide a sound knowledge and understanding of the concepts of communication and decision making and demonstrate how teachers and other stakeholders could be effectively involved in the decision making process in basic schools. Furthermore, the course seeks to provide opportunities to student teachers to observe, report, and analyse practical administrative, management, and leadership styles. These will enable student teachers to take up leadership positions in the future to ensure effective supervision and administration of basic schools. It will also equip student teachers with skills to manage the transition of learners from Early Grade to Upper Primary Schools. The course helps student teachers to understand and demonstrate that collaboration, partnership, and teamwork are essential approaches to be welcomed by all teachers. Teaching Differentiated interactive techniques (including pyramid and panel discussions, role play, audio-visual and tactile analysis, diamond nine, shower thoughts) and assessment procedures (individual and group projects, reports and presentations, case studies, assessment inventories, and digital/manual portfolios) will be employed in the learning process to enable student teachers to apply the various administrative and management principles and theories in the classroom and the basic school as a whole (NTECF, NTS 2d, 3e, 3k, 3p, 2l, p.18).

**Course Learning Outcomes**
On successful completion of the course, student teachers will be able to:

1. Demonstrate knowledge and understanding of the nature and functions of administration and management (NTS 1e, 2a, 3c, 3d).
   - 1.1 Provide clear evidence of understanding of the concepts administration and management.
   - 1.2 Show evidence of understanding and application of the functions (POSDCoRB) of administration and management.
   - 1.3 Provide clear evidence regarding the understanding of the uniqueness of Upper Primary School administration.
   - 1.4 Identify the challenges encountered in the administration of inclusive Upper Primary Schools.

2. Demonstrate knowledge and understanding of the reasons for classifying the basic school as a formal organisation, and the duties of headteachers of inclusive Upper Primary Schools (NTS, 3e).
   - 2.1 Show evidence of understanding of the meaning and types of organisation.
   - 2.2 Provide evidence of understanding of what makes the basic school a formal organisation.
   - 2.3 Show clear evidence of understanding of the specific duties of the inclusive Upper Primary Schools basic school headteacher.
   - 2.4. Provide evidence of understanding the role of the headteacher in mobilising resources for the administration of inclusive Upper Primary Schools.

3. Critically review the various schools of administrative thought and their applications to the educational setting (NTS 1a)
   - 3.1 Provide evidence of understanding of the different schools of administrative thought.
   - 3.2 Provide clear evidence of the application of the principles of schools of administrative thought to the school or educational settings.
4. Demonstrate knowledge and understanding of the concept of leadership, and apply the theories and styles of leadership in achieving cordial school-community relationships (NTS,1d).

4.1. Exhibit evidence of understanding of the concept of leadership, and identify the theories of leadership.
4.2. Provide clear evidence of understanding and application of the styles of leadership.
4.3. Provide clear evidence of understanding leadership qualities that relate to their experiences.
4.4. Show a clear application of appropriate strategies adopted by headteachers of inclusive basic schools to achieve a cordial school-community relationship.

5. Exhibit understanding and application of communication, decision-making, and supervision in the administration of inclusive basic schools (NTS 1e, 2d, 3f).

5.1. Show a clear understanding of the concepts of communication, decision-making, and supervision.
5.2. Provide evidence that they understand the need for effective communication, decision-making, and supervision in inclusive classrooms and schools.
5.3. Identify the various barriers to effective communication, decision-making, and instructional supervision in inclusive classrooms and schools.
5.4. Show evidence of understanding the strategies that promote effective communication and decision-making in inclusive classrooms and schools.
5.5. Provide a clear understanding and application of the criteria for appraising teachers.

6. Exhibit knowledge and understanding of school climate and school-community partnership (NTS 1e, 1f, 2f, 3h, 3o).

6.1. Show evidence of understanding of the concept of inclusive school climate and its types.
6.2. Provide clear evidence of understanding of the importance and determinants of school climate.
6.3. Provide evidence of understanding of the meaning, types, and principles of school-community partnership.
6.4. Show a clear understanding of the need for effective school-community partnerships and ways to achieve it.
6.5. Demonstrate a clear application of the appropriate strategies for effective delegation and handling of conflicts in inclusive basic schools and the community.
6.6. Provide clear evidence of understanding of the role of GES, SMC, Board of Governors, PTA, in fostering cordial inclusive basic school-community partnership.

7. Demonstrate understanding of professional ethics and values that portray teachers as good role models in the school and community (NTS 1c, 1d, 1f, 1g, 2a, 2c, 3n, 3o).

7.1. Identify the major National Teachers’ Standards that relate to their experiences.
7.2. Show evidence of understanding of how teachers could become good models in the school and community.

In exposing student teachers to the concepts in this course, teacher educators should endeavour to use examples, illustrations, multimedia tools, and interactive strategies that are gender-responsive and those that promote equity and inclusivity (e.g. mixed ability and gender-balanced groups for panel discussions, debates and projects).

</table>
### 6. School climate and school-community partnership

- Meaning and types of inclusive school climate
- Determinants and importance of school climate
- Meaning, types, and principles of school-community relationship
- The need for an effective relationship between basic schools and the community
- Ways to ensure an effective relationship between basic schools and the community
- Effective delegation and handling of conflict issues in inclusive Upper Primary Schools.
- Role of GES, SMC, PTA, GES, DEOC, MOE, NGOs in fostering cordial school-community partnership.
- Tutor-led discussion on meaning, types, determinants, and importance of inclusive school climate.
- Panel/pyramid discussion on meaning, types, and principles of school-community relationship.
- Individual and group powerpoint presentations on the need for and ways to ensure an effective relationship between inclusive Upper Primary Schools and the community.
- Audio-visual and tactile analysis of skills for effective delegation and handling of conflict issues in inclusive Upper Primary Schools and the community.
- Team teaching/Resource persons for Role of GES, SMC, PTA, GES, DEOC, MOE, NGOs in fostering a cordial school-community relationship.

### 7. Contemporary issues in basic school administration

- 21st Century teaching skills
- Professional standards (National Teachers’ Standards for Ghana), and Code of Ethics, including Gender and SEND
- Licensing of teachers
- Induction, professional development, and promotion of teachers in basic schools
- Individual and group presentations on 21st Century teaching skills using powerpoint.
- Resource persons to talk on professional standards, code of ethics, gender and SEND issues, and licensing of teachers.
- Panel/pyramid discussion, shower thoughts, individual and group presentations on induction, professional development, and promotion of teachers in Upper Primary Schools.

In assessing student teachers, teacher educators should endeavour to use assessment procedures that are gender-sensitive/responsive and those that promote inclusivity (gender-balanced and mixed ability groups for presentations, projects).

### Course Assessment

**Component 1: Subject Portfolio Assessment (30% overall score)**

- Selected items of students work (3 of them - 10% each) = 30%
- Midterm assessment = 20%
- Reflective Journal = 40%
- Organisation of the subject portfolio = 10% (how it is presented /organised)

**NOTE:** Assignment (Each should NOT be more than 400 words)

i. Reflective notes on the leadership style of headteachers student teachers worked under during internship
ii. Matrix of characteristics of leadership styles on posters
iii. Effective ways of communicating and involving teachers in decision making in school
iv. Quiz on the differences and similarities of administration and management; educational implications of the functions of administration and management (POSDCoRB); and the unique nature of administration of Upper Primary Schools.

Assesses Learning Outcomes: CLO 1 (Unit 1 - NTS 1e, 2a, 3c, 3d) CLO 2 (Unit 2 - NTS 3e).
Component 2: Subject Project: (30% overall semester score)
- Introduction, a clear statement of the aim and purpose of the project = 10%
- Methodology: what the student teacher has done and why to achieve the purpose of the project = 20%
- Substantive or main section = 40%
- Conclusion = 30%

Note: Subject Project: This should be given in week 2 and taken in week 7

i. Group powerpoint presentations of the specific duties of the inclusive Upper Primary School headteacher.
ii. Group powerpoint presentations of the schools of administrative thoughts and their educational implications as observed in their schools of practice.

Assesses Learning Outcomes: CLO 1 (Unit 1 - NTS 1e, 2a, 3c, 3d) CLO 3 (Unit 3 - NTS 1a, 1d); CLO 4 (Unit 4 - NTS 1, 1d, 1f, 1g, 2a, 2c, 3n, 3o)

Component 3: End of Semester Examination: 40%

Assesses Learning Outcomes: CLO 5 (Unit 5 - NTS 1e, 2d, 3f) CLO 6 (Unit 6 - NTS 1e, 1f, 1g, 2f, 3h, 3o) and CLO 7 (Unit 7 - NTS 1c, 1d, 1f, 1g, 2a, 2c, 3n, 3o)

1. TESSA Online Educational Resources (www.tessafrica.net)
2. T-TEL Modules (www.t-tel.org).
4. The iBox (CENDLOS)
5. Audio-visuals and animations from YouTube
6. Audio-visuals and animations from YouTube
7. Projectors and computers

# Lesson 1

<table>
<thead>
<tr>
<th>Title of Lesson</th>
<th>Nature of basic school administration and management</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lesson description</td>
<td>This first lesson introduces student teachers to the course learning outcomes and the 3 assessment components of the course. The lesson also introduces student teachers to the nature of basic school administration and management. Basic concepts such as administration and management will be explained as well as the functions of administration and management (POSDCoRB). The uniqueness of Upper Primary School administration will also be highlighted.</td>
</tr>
<tr>
<td>Previous student teacher knowledge, prior learning (assumed)</td>
<td>Student teachers have embarked on STS and observed how schools are managed. Moreover, they have ideas about how their colleges are managed.</td>
</tr>
<tr>
<td>Possible barriers to learning in the lesson</td>
<td>Students’ own experiences of how their previous schools were managed or administered. Poor understanding of concepts about the functions of administration and management.</td>
</tr>
<tr>
<td>Lesson Delivery – the main mode of delivery chosen to support student teachers in achieving the learning outcomes</td>
<td>Face-to-face: Talk for learning approaches including pyramid and panel discussion, think-pair-share, shower thoughts, etc. should be used in facilitating the lesson. E-learning opportunities: Videos from YouTube on misconceptions and barriers to school management and administration. Seminars: to generate group and individual creativity, discussion, and reflection; student and/or tutor-led on the use of various learning resources. Independent study: to enable student teachers to engage with relevant issues related to the topic.</td>
</tr>
<tr>
<td>The overarching outcome, what you want the student teachers to achieve, serves as a basis for the learning outcomes. An expanded version of the description. Write in full aspects of the NTS addressed</td>
<td>The overarching outcome for this lesson is to equip student teachers with knowledge, skills, and competence in managing classrooms and schools. It is expected that by learning the functions of administration and management they will be in good stead to effectively apply these concepts particularly in managing Upper Primary Schools. It is also the aim of this lesson to refresh student teachers’ knowledge about the course learning outcomes and the 3 assessment components.</td>
</tr>

### Lesson Delivery

- **Face-to-face:** Talk for learning approaches including pyramid and panel discussion, think-pair-share, shower thoughts, etc. should be used in facilitating the lesson.
- **E-learning opportunities:** Videos from YouTube on misconceptions duties of headteachers of inclusive basic schools
- **Seminars:** to generate group and individual creativity, discussion, and reflection; student and/or tutor-led on the use of various learning resources.
- **Independent study:** to enable student teachers to engage with relevant issues related to the topic.
- **Practicum:** working in mixed-ability groups for role play, discussion, and presentations.

### The overarching outcome

The overarching outcome for this lesson is to equip student teachers with knowledge, skills and competence in managing classrooms and schools as an organisation. It is expected that student teachers will be able to identify the contrasting features between formal and informal organizations and effectively utilise that knowledge to administer their classrooms and schools.

Moreover, after undertaking this lesson, student teachers are expected to appreciate the uniqueness of the administration of Upper Primary Schools. Finally, the lesson intends to equip student teachers with knowledge about the specific and general duties of Upper Primary School headteachers as well as how to be resourceful.

### Learning Outcomes

- **Learning Outcomes**
  - CLO 2. demonstrate knowledge and understanding of the reasons for classifying the basic school as a formal organisation, and the duties of headteachers of Upper Primary Schools (NTS, 3e p.14).

- **Learning Indicators**
  - 2.1. Explain the concept of an organisation and identify the types.
  - 2.2. Compare and contrast the features of formal and informal organisations.
  - 2.3. Discuss the reasons for the uniqueness of the administration of Upper Primary Schools.
  - 2.4. Discuss the specific and general duties of Upper Primary Schools headteachers.

Communication skills: through critiquing and presentations.
Digital literacy: Surfing the internet for relevant information on the themes to be discussed in the lesson.
Creativity and innovation: thinking about ways of applying the characteristics of physical development in middle childhood classrooms.
Equity and inclusivity: using various strategies in grouping students considering their...
2.5. Explain the role of headteachers mobilising resources for the administration of Upper Primary Schools.

**Title of Lesson**  
Schools of administrative thoughts and their educational implications

**Lesson description**  
In this lesson student teachers are introduced to the various schools of administrative thought. Specifically, three (Scientific, Administrative, and Bureaucratic) schools of thought will be considered. The implication of applying each of the identified perspectives in our educational setting will also be explored.

**Previous student teacher knowledge, prior learning (assumed)**  
Student teachers may have experienced varied leadership styles from their homes, previous schools, and classrooms which were informed by these schools of administrative thought.

**Possible barriers to learning in the lesson**  
Student teachers' biases and preferences for specific schools of thought. Ineffective modes of teaching and other cooperating factors.

**Lesson Delivery – chosen to support student teachers in achieving the outcomes**

**Practicum:** working in mixed-ability groups for role play, discussion, and presentations.

**The overarching outcome, what you want the student teachers to achieve, serves as a basis for the learning outcomes. An expanded version of the description. Write in full aspects of the NTS addressed**

The overarching outcome for this lesson is to introduce student teachers to the various schools of administrative thought and their implications. This topic or lesson is crucial as part of the training of pre-service teachers because throughout their teaching careers they are almost certain to encounter situations, challenges, and issues that may require administrative decisions. To effectively deal with these situations require the student teacher to be equipped with critical knowledge on theories of administration.

**Learning Outcome for the lesson, picked and developed from the course specification**

- CLO 3. critically review the various schools of administrative thought and their applications to the educational setting (NTS 1a p.12)

**Learning Indicators**

3.1 Compare and contrast the different schools of administrative thought.

3.2 Discuss the educational implications of the principles of schools of administrative thought.

**Identification which cross-cutting issues – core and transferable skills, inclusivity, equity, and addressing diversity. How will these be addressed or developed?**

Communication skills: through critiquing and presentations.

Digital literacy: Surfing the internet for relevant information on the themes to be discussed in the lesson.

Creativity and innovation: thinking about ways of applying the characteristics of physical development in middle childhood classrooms.

Equity and inclusivity: using various strategies in grouping students considering their background characteristics and abilities.

Lesson 5

Title of Lesson: Leadership in inclusive Upper Primary Schools

Lesson Duration: 3 Hours

Lesson description:
This is the first of two lessons on the topic “Leadership in inclusive Upper Primary schools”. In this lesson, some conceptual issues in leadership will be explored. Major leadership theories (e.g. trait, behavioural, situational) and the forms of Leadership (e.g. transactional, transformational, laissez-faire) will be treated.

Previous student teacher knowledge, prior learning (assumed):
Student teachers have been taught the various schools of thought in administration and the theories of leadership.

Possible barriers to learning in the lesson:
Cultural practices and biases against the education of certain categories of learners.

Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes:
1. Face-to-face: Talk for learning approaches including pyramid and panel discussion, think-pair-share, shower thoughts, etc. should be used in facilitating the lesson.
2. E-learning opportunities: Videos from YouTube on misconceptions and barriers to counselling.
3. Seminars: to generate group and individual creativity, discussion, and reflection; student and/or tutor-led on the use of various learning resources.
4. Independent study: to enable student teachers to engage with relevant issues related to the topic.
5. Practicum: working in mixed-ability groups for role play, discussion, and presentations.

The overarching outcome of the lesson is to equip student teachers with knowledge about how to provide effective leadership in inclusive Upper Primary schools through the study and application of the various concepts and theories.

</table>

<table>
<thead>
<tr>
<th>Title of Lesson</th>
<th>Communication, decision making, and supervision in inclusive Upper Primary Schools</th>
<th>Lesson Duration</th>
<th>3 Hours</th>
</tr>
</thead>
</table>

### Lesson Description
In this lesson, student teachers will explore ways and channels of communicating in basic schools. The importance of decision making and how to promote teacher participation in decision making will also be examined. Various models and effective ways of supervision in the primary school will be discussed drawing on the STS experiences of student teachers. The lesson will be delivered using varying teaching and learning techniques and will also be assessed using differentiated assessment procedures.

### Previous Student Teacher Knowledge, Prior Learning (assumed)
Student teachers have been involved in STS in different learning environments since the first year and might have therefore observed various school administration and management practices. They might have experienced various modes of communication, supervision in the primary school.

### Possible Barriers to Learning in the Lesson
Student teachers have not been administrators and managers before.

### Lesson Delivery – chosen to support student teachers in achieving the outcomes

<table>

## Lesson 8

**Title of Lesson:** Roles and responsibilities of educational agencies and bodies in Ghana

**Lesson Duration:** 3 Hours

### Lesson description

The lesson seeks to expose students to the role and responsibilities of government agencies in the administration and supervision of teachers in Ghana. The functions of these institutions and the roles they play in teacher appraisals and supervision will be discussed. Various teaching techniques and assessment practices will be employed to enable student teachers to understand the role they play in the broad scheme of things.

### Previous student teacher knowledge, prior learning (assumed)

Students are familiar with some of the governmental bodies and institutions in charge of school supervision in Ghana. During STS in schools, they might have also had the opportunity to observe their activities in their various schools of practice.

### Possible barriers to learning in the lesson

Student teachers may not have the opportunity to observe the activities of some of these institutions in their schools of practice.

### Lesson Delivery – chosen to support student teachers in achieving the outcomes

- **Face-to-face:** Both teacher and student-led approaches such as discussions of varying kinds should be used.
- **E-learning opportunities:** Student teachers will explore and search for information from the internet.
- **Seminars:** Both individual and group presentations of projects should be encouraged.
- **Practical Activity:** Students review work samples of learners and other records to explain progress or barriers to learning.

### Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes

**Face-to-face**: Both teacher and student-led approaches such as discussions of varying kinds should be used.

**E-learning opportunities:** Student teachers will explore and search for information from the internet.

**Seminars:** Both individual and group presentations of projects should be encouraged.

**Practical Activity:** Students review work samples of learners and other records to explain progress or barriers to learning.

### The overarching outcome, what you want the student teachers to achieve, serves as a basis for the learning outcomes. An expanded version of the description. Write in full aspects of the NTS addressed

Demonstrate knowledge and understanding of the roles, responsibilities, and functions of various government bodies and institutions in school administration and supervision. NTS 1c, d, e; 2a

### Learning Outcome for the lesson, picked and developed from the course specification

- Demonstrate knowledge and understanding of the roles, responsibilities, and functions of various government bodies and institutions in school administration and supervision. NTS 1c, d, e; 2a

### Learning Indicators

1. Discuss the roles and responsibilities of GES, SMC, PTA, DEOC, MOE, NIB, NTC, etc
2. Examine the functions of the GES, SMC, PTA, DEOC, MOE, NIB, NTC, etc
3. Examine the criteria for appraising teachers in basic schools

### Identify which cross-cutting issues – core and transferable skills, inclusivity, equity, and addressing diversity. How will these be addressed or developed?

Students will develop communication and collaboration skills through working in pairs and small groups. Critical thinking, personal development and lifelong learning will be developed by examining and interrogating their experiences from STS.

| Year of B.Ed. | 4       | Semester | 2       | Place of lesson in semester | 1 2 3 4 5 6 7 8 9 10 11 12 13 |

**Title of Lesson**

**Revision Week**

**Lesson Duration**

3 Hours

**Lesson Description**

This week’s interaction will provide the opportunity for review of various topics and themes treated. Seemingly difficult and critical concepts will be discussed further to provide student teachers with deeper insights and understanding while drawing from their experiences during the STS. Various delivery techniques and strategies such as discussion, a talking point, debate, dramatization, and appropriate talk for learning approaches will be deployed to make the session more practical.

**Previous student teacher knowledge, prior learning (assumed)**

Students have been exposed to all the topics and have also observed administration and management practices in schools of practice during the STS.

**Possible barriers to learning in the lesson**

**Lesson Delivery – chosen to support student teachers in achieving the outcomes**

**Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes.**

Face-to-face: Both teacher and student-led approaches such as discussions of varying kinds should be used.

**E-learning opportunities:** Student teachers will explore and search for information from the internet.

**Seminars:** both Individual and group presentations of projects should be encouraged.

**Practical Activity:** Students review work samples of learners and other records to explain progress or barriers to learning.

**The overarching outcome, what you want the student teachers to achieve, serves as a basis for the learning outcomes. An expanded version of the description. Write in full aspects of the NTS addressed.**

Demonstrating secured content knowledge, understanding, and skills relevant to the administration and management of basic schools in Ghana. NTS 1c,d,e,f,g; 2a; 3c,d

- Learning Outcome for the lesson, picked and developed from the course specification
- Learning indicators for each learning outcome
