Music: Analysis of Policy Document and Syllabi
These Initial Teacher Education course manuals were developed by a team consisting of members from Colleges of Education and four universities namely the University of Ghana, Kwame Nkrumah University of Science and Technology, University of Education, Winneba, and University for Development Studies. This team was originally constituted by the National Council for Tertiary Education (now the Ghana Tertiary Education Commission) in 2019 to support the delivery of the new B.Ed. curriculum with assistance from T-TEL and UK Aid. The revision, finalization and printing of these manuals took place in 2021 with support from T-TEL and Mastercard Foundation.

The course manuals have been produced for use as general guides for the delivery of the new four-year B.Ed. curriculum in Colleges of Education in collaboration with their affiliated universities. They are designed to support student teachers, tutors, and lecturers in delivering a complete B.Ed. course for training student teachers which meets the requirements of the National Teachers’ Standards, enabling them to teach effectively in basic schools.

The first section of the manuals is focused on the course information and vision for the B.Ed. curriculum. The second section presents the course details, goal for the subject or learning area, course description, key contextual factors as well as core and transferable skills and cross-cutting issues, including equity and inclusion. The third section is a list of course learning outcomes and their related learning indicators. The fourth section presents the course content which is broken down into units for each week, the topic and sub-strands and their related teaching and learning activities to achieve the learning outcomes and the teaching and learning strategies. This is followed by course assessment components in section five. Each manual contains a list of required reading and references as well as teaching and learning resources. The final section presents course related professional development for tutors and lecturers to be able to use each section of the manual.

Field instructions to guide Supported Teaching in School are integrated into the course manuals to provide the student teacher with guidance in developing teaching throughout the entire period of study to be able to meet the requirements of the National Teachers’ Standards (NTS) and the National Teacher Education Curriculum Framework (NTECF). To ensure maximum benefit the course manuals should be used in addition to other resources such as the NTS, NTCEF, National Teacher Education & Assessment Policy and the National Teacher Education Gender Equality and Social Inclusion (GESI) Strategy and Action Plan.. This will help to ensure that student teachers’ learning is integrated within the wider teacher education policy framework.

Professor Mohammed Salifu Director General, Ghana Tertiary Education Commission
ACKNOWLEDGEMENTS

The course manuals were developed through the collaborative efforts of a team of individuals from Colleges of Education, University of Ghana, Kwame Nkrumah University of Science and Technology, University of Education, Winneba, and University for Development Studies. They were produced in association with the Ghana Tertiary Education Commission of the Ministry of Education, Ghana.

A participatory team approach was used to produce this set of resources for tutors/lecturers, mentors, and student teachers. We are grateful to the specialists who contributed their knowledge and expertise.

Special thanks to Professor Jophus Anamuah-Mensah - T-TEL Key Advisor, Dr. Eric Daniel Ananga - T-TEL Key Advisor for Curriculum reform and Beatrice Noble-Rogers who provided key editorial, review and content input and facilitated the process of drafting and finalising the course manual.

Patricia Appiah-Boateng and Gameli Samuel Hahomene, served as typesetting and formatting coordinators and designed and produced the illustrations, tables, and other graphics which appear in the pages. They spent time and effort designing and redesigning the graphic layout and producing the camera-ready copy resulting in a set of materials that are easy to use, read, and reference.

Thanks also goes to all T-Tel staff members who worked to support production of these course manuals, particularly Beryl Opong-Agyei and Gideon Okai. Their frankness and co-operative attitude complimented the team approach used to produce this manual.

We are indebted to the Ministry of Education and the Ghana Tertiary Education Commission (GTEC) for the general support and specific helpful advice provided during production of the course manuals. Recognition and thanks must go to Chief Technical Advisor for T-TEL and Policy Advisor to the National Education Reform Secretariat, Akwasi Addae-Boahene, Prof. Mohammed Salifu, the Director General of GTEC and Mr. Jerry Sarfo the coordinator for the colleges of education, who in diverse ways supported during the course manual writing workshops.

In addition to all the staff who participated visibly in the development of these materials we would like to acknowledge all those people from the many colleges of education and universities in which we have worked who have, directly or indirectly, shared their views on the curriculum with us.

INTRODUCTION TO COURSE MANUALS

Welcome to this B.Ed. Course manual.

Following the accreditation of the B.Ed. by the national accreditation Board with its recognition as a world class teacher education curriculum, the decision was taken to support effective implementation through the development of course manuals. The course manuals provide tutors and lecturers with the materials necessary to support teaching each of the B.Ed. courses. The manuals adhere directly to, and emphasise, the principles and standards set out in the NTS, NTECF and in the B.Ed. and will help ensure operationalising the Government’s teacher education reform Policy.

The manuals serve the following purposes:

- they are the key educational agreements between the training institution and the student teachers. In this way student teachers know what the expectations are for them and for the training they will receive.
- they lay out the course outcomes, content, strategies, and assessment, thereby providing direction to and consistency in training and B.Ed. implementation among tutors across the country.
- they are explicit documents that provide other institutions with information on which to base transfer/ articulation decisions.

Specifically, they also:

- support coherent lesson planning and teaching which will enable student teachers to achieve the NTS and become good teachers who ensure all pupils’ learning whilst offering tutors the flexibility for adaptation for local needs and contexts.
- Provide a lesson by lesson overview of the course, building on and developing the material in the course specifications.
- Inform tutors, student teachers and others working with student teachers about:
  1. What is to be taught and why.
  2. how it can be taught.
  3. how it should be assessed.
- Provide opportunities for student teachers to develop and apply knowledge during supported teaching in school, creating a strong bond between learning in school and in the training institution.
- Reflect the stage of student teacher development, set out in the model for progress across the four years of the B.Ed.
- Can be used as self-study tools by student teachers.
- Ensure that all information necessary to inform teacher training is in one place (serves as reference document).
- The manuals are the basis of the codes and university professional development sessions to ensure Principals, tutors, lecturers and heads of department are fully familiar with the details of: courses, outcomes, content, approaches, assessments and lessons.
Who are course manuals for:

- College of Education Tutors
- Teacher Education University Lecturers
- Student Teachers
- Mentors and Lead Mentors
- All Those with An Interested In Teacher Education.
USING THIS MANUAL

Writers of the manuals engaged widely with colleagues in each subject area at each stage of development. Besides, writers envisaged themselves in varied contexts as they wrote, to suggest methodologies and strategies for teaching the strands which would ensure student teachers are enabled to achieve the learning outcomes. In view of our commitment to creativity, problem solving, collaboration and to lifelong learning, we expect that individual tutors will “own” their manuals and become user-developers. Lessons in the manuals will be strands for weekly Pd meetings where tutors/lecturers will situate the lessons in the contexts of their colleges and their student teachers, to maximize the benefits.

It is also expected that tutors will model the best pedagogic practices for student teachers. Key among such practices is the communication of the importance of having a personal teaching philosophy. We expect that tutors and lecturers will explicitly communicate their personal teaching philosophies to their student teachers during the first meeting of every course. In preparation for this, we suggest you set out your personal teaching philosophy and how it will be demonstrated in your teaching using, or adapting, the sample sentence introductions below.

My teaching philosophy is ...........................................................................................................................................

In view of this philosophy, I will facilitate this course by/through ........................................................................
Introduction to Specialism Programmes:  
Junior High School Specialism

**Goal:** This programme is designed to provide student teachers with concepts and pedagogy required to teach in Junior High School, to support the learning of pupils between the ages of 11 and 14. Pupils of this age range are in the early adolescent stage of development, which involves rapid developmental changes. Student teachers will gain understanding of human development and the developmental milestones associated with JHS and how they are manifested, individually and in groups.

This specialism provides the opportunity for the student teachers to acquire in-depth subject matter knowledge in two specialist subjects* and the ability to teach using appropriate interactive strategies. Student teachers will be trained to understand their pupils as individuals and members of their communities; be able to shape their learning and support their well-being and participation in such a way that it builds on their interests and aspirations, strengths and needs and encourage them to become thinkers and doers.

The JHS teacher education programme will support the student teacher in appreciating and demonstrating honesty, integrity and love for country and be able to transfer these values to the learners.

By the end of their programme, the student teachers will have the opportunity to gain the subject knowledge, skills values and attitudes of a good teacher who meets the NTS in full.

*Specialist subjects: English, French, Ghanaian Languages, ICT, Mathematics, Music, PE, Science, SEND, Geography, History, Social Studies and TVET

**Context**

The Government, in its desire to improve the teaching and learning environment in the Junior High School has initiated several ongoing interventions. However, Junior High School education still faces a number of challenges including the lack of commitment and involvement of parents, financial constraints and inadequate infrastructure. Some of the attendant challenges are:

- lack of qualified teachers at the Junior High School level in the various subject areas.
- some school do not have sufficient number of teachers trained to identify, manage and support the learning challenges of adolescents.
- the school system lacks mechanisms to identify and support pupils with learning disabilities and other SEN
- many Junior High School teachers have low ICT competency and are unable to integrate ICT into their teaching and learning
- cultural practices and prejudices that prevent the creation of a learning environment conducive to supporting the learning of all learners. An example is the belief that STEM subjects are male specific and home economics is female specific.
- teaching at the Junior high school at the moment mostly focuses on passing the Basic Education Certificate Examination (BECE) and not on quality and depth in learning and personal development: this leads to teaching and learning by rote
- There is a lack of parental involvement in the teaching and learning process.

**Key Learning/overarching Outcomes:**

Student teachers should be able to:

1. Demonstrate secure content knowledge in their specialist subjects and be able to teach these to their pupils. (NTS 2c, 3i, NTECF Pillar 1)
2. Use appropriate differentiated, interactive instructional and assessment strategies that encourage inquiry learning, develop deductive reasoning and the ability to deal with abstract concepts; cater for the need of all pupils in JHS, including those with special education needs (NTS 3e, 3f, 3g, 3k, 3l, 3m, 3n, 3o, NTECF pillar 4)
3. Demonstrate knowledge and application of the subject specific literacies of the subjects they teach and be able to support pupils in acquiring these; also demonstrate the ability to use language for academic purposes (NTS 2c, 3i, NTECF Pillar 2)
4. Understand human development and the developmental milestones of adolescence and be able to cater for these in their teaching; guide and counsel pupils who are going through critical physical, emotional and cognitive development and make them feel that their increasing maturity is being recognised and appreciated
5. Understand, recognise, make visible and address stigma, bias and other forms of discrimination, bullying and other exclusion related matters in subjects, (for example over representation of boys in mathematics) the curriculum, school and classrooms.
6. Manage smooth transitions between lessons
7. Collaborate with other teachers to make connections between subjects
8. Support transition from Upper Primary to JHS, from class teaching to subject teaching and understand progress in learning in the ages before and after JHS.
9. Recognise and understand adolescent behaviour and be equipped with positive behaviour management skills to deal effectively with such things as: disaffection from learning and low level disruption and ensure rewards and sanctions are relevant as pupils grow in maturity; creating a positive and stimulating learning environment. (NTS 2e, 2f, 3d, NTECF Pillar 3)
10. Demonstrate the core and transferrable skills like problem solving and creativity and taking advantage of the affordances of ICT integrating it into teaching and learning (NTS 3j, NTECF pillar 4, crosscutting issues; Core skills, Professional values and attitudes, ICT)

11. Carry out classroom inquiry and action research and reflect on their teaching practices for continuous professional development (NTS 1a, 1b, 1c 3b, NTECF: crosscutting issues; Core skills, Professional values and attitudes)

12. Collaborate with parents and stakeholders to secure their participation in developing adolescent pupils in JHS (NTS 1e)

13. Develop and use locally available materials creatively to produce appropriate TLMs for Junior High School (NTS 3j, NTECF pillar 4)

14. Through all of the above, demonstrate knowledge and application of the Teachers’ Standards, Junior High School curriculum, laws protecting children and all relevant regulations (NTS 1c, 1e, 1f, 1g, 2a NTECF: crosscutting issues; Core skills, Professional values and attitudes).
Distinctive Features of the Specialisms

<thead>
<tr>
<th>JHS Building strong relationships</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Communication</strong></td>
</tr>
<tr>
<td>• Knowing the specific literacy and language of the subject/s taught</td>
</tr>
<tr>
<td>Support pupils in acquiring these and in their ability to use language for academic purposes</td>
</tr>
<tr>
<td><strong>Inclusion and Equity</strong></td>
</tr>
<tr>
<td>• Human development (teenage years) and developmental milestones</td>
</tr>
<tr>
<td>• Making gender roles visible in the curriculum (i.e. over-representation of boys in music)</td>
</tr>
<tr>
<td>• Explore student/teacher personal bias and stereotypes as well as institutional discrimination within the subject; produce learning opportunities that target specific themes in the subject matter</td>
</tr>
<tr>
<td>• Identify/screen students, within a class, who might need: group, targeted, of intensive interventions and plan accordingly (identify support human resources)</td>
</tr>
<tr>
<td>Work with families and external professionals to ensure barriers to leaning are identified, addressed and overcome</td>
</tr>
</tbody>
</table>

| **Teaching** |
| Deep understanding of the subject content and ability to teach this using teaching and assessment strategies appropriate for JHS. |
| Consideration for formal abstract teaching |
| Collaboration between teachers of other subjects (e.g. Mathematics teaching vectors or trigonometry in collaboration with ICT teacher) |
| - interrelatedness of subjects |
| - community of practice |
| - adherence to subject |
| - teaching durations & managing smooth transition between subjects in class |

| **Managing transitions** |
| - between subjects |
| - subject orientation |
| - have an ability to incorporate/integrate subjects (Knowledge of the JHS curriculum) |
| - to approaches to T and L in SHS |

| **Characteristics of adolescence** |
| Behaviour monitoring & management: ability to recognise varied adolescent behaviours in class and be equipped with skills to handle them (*equity & inclusivity issues) |

| **Assessment for as and of learning:** |
| - know, understand and guide adolescent child to engage in self-assessment |
| - use other age-appropriate and learner-friendly assessment formats |

| **Ethics and values of teaching:** |
| - know, understand and demonstrate the ethics of the profession bearing in mind the unique characteristics of early adolescent child |
| - Teachers’ Standards, child’s rights, laws protecting children |

1. The vision for the New Four-Year B.Ed. Curriculum

To transform initial teacher education and train highly qualified, motivated new teachers who are effective, engaging and fully prepared and so improve the learning outcomes and life chances of all learners they teach as set out in the National Teachers’ Standards. In doing Nation’s core values of honesty, integrity, creativity and responsible citizenship and to achieve inclusive, equitable, high quality educatio

Upon completion of the developing year in the New B.Ed. programme, the student teacher will be able to;

1. Teach, motivate, support and manage, working individually and in pairs, the learning of small groups of pupils in the core sub and science and other subjects as appropriate to their specialism.
2. Begin to identify, assess and analyse the needs of children, taking into account any issues of background and experience.
3. Discuss key features of the school curriculum, including issues of continuity and progression within their specialism and across subjects.
4. Undertake small scale classroom enquiry focussed on children’s learning and progress, demonstrating an emerging ability to rel of teaching, learning and assessment.
5. Demonstrate a high standard of professional conduct and positive professional values at all times and act as a good role model
6. Demonstrate a growing understanding of the requirements of the NTS in terms of professional practice, knowledge, va professional role as a teacher, and be able to reflect on, record and discuss evidence of their progress towards meeting the NTS
7. May be working towards 30% of class responsibility with the small groups they are planning for and teaching.
8. Carry out small-scale action research on syllabi under the guidance of the mentor in school where they will spend a total 60 da

i. The vision for the New Four-Year B.Ed. Curriculum

To transform initial teacher education and train highly qualified, motivated new teachers who are effective, engaging and fully prepared and so improve the learning outcomes and life chances of all learners they teach as set out in the National Teachers’ Standards. In doing so, the Nation’s core values of honesty, integrity, creativity and responsible citizenship and to achieve inclusive, equitable, high quality education.

ii. Course Details

Table of contents

1. Goal for this Lesson

The goal of this lesson is to help student teachers to familiarize with existing policies and reforms pertaining to PEMD. Student teachers will policies and syllabi to develop understanding which will inform future planning and practice. Student teachers will chart scope and size and find solutions for such barriers/problems.

2. Course Description

The course focuses on exploration and analysis of existing policy and legislative documents pertaining to pre-tertiary education in Ghana. Analysis of the existing and the New NaCCA syllabi for teaching physical education and music and dance. The course is designed to link up theories of learning in physical education (including Guggisberg, Siedentop, WHO, UN Charter-PE, etc.) and music education (including Dalcroze, Carl Orff, Suzuki, Gordon, Nzewi, Ghana Cultural Policy, etc.). Furthermore, this course will look at TLMs, facilities and other resources teaching and learning in the disciplines.

3. Key contextual factors

The Analysis of Policy Documents and Syllabi course will be taught in a one-three-hour session in each week. Every 3-hour session in a week the inter-disciplinary connections between and amongst various courses. It is recommended that extended evening practices should be from 3:30pm to 5:30pm each day to practice skills and concepts introduced in-class. This arrangement will increase opportunity to respond, the content and address persistent contextual issues and misconceptions. such as:

1. **Physical education sport, music and dance content are not as important as numeracy and literacy content.** The content and that physical education, sport, dance and music are unique and worthy in their own right and cannot be compared to numeracy. reveal that, numeracy and literacy content can be reinforced in physical education, music and dance settings

2. **Physical education, sport, music and dance content lack equity, flexibility, size and space for approach and use. Policy and syllabus space for use regardless of the learner’s body size, posture, or mobility, left- or right-handed.** In fact, making provisions for a

The course is organised in an integrative instructional manner that prepares student teachers to achieve all the five CLOs. The general strategies for delivery will include:

- Explaining principles and concepts of PEMD syllabi through examples.
- Using inductive-deductive approaches to teaching the PEMD NaCCA syllabi.
- Enabling students to solve application problems in the PEMD NaCCA syllabi.
- Focusing on the teacher as a mediator and looking at students’ characteristics as potential barrier to learning.
- Ensuring that all activities are respectful of every child’s right to education as well as ensure that all children can learn and benefit

4. Core and Transferable Skills and Cross Cutting Issues, Including Equity and Inclusion

Student teachers will be taken through comprehensive experiences to develop positive professional attitudes and values, cross-cutting physical education & music and dance including:

- Background of learners—self-awareness
- Cultural issues
- Gender issues in music, dance
- Equity and Inclusivity—including Gender and SEN/Disability—
- Professional values and attitudes—
- Cross-cutting—problem solving, financial literacy, digital literacy, open-mindedness.
- Core Values—honesty, integrity, cooperation, perseverance and grit, teamwork responsible citizenry, respect for others, etc.

8. Teaching and Learning Strategies

The specific strategies for delivery will include analysis of documentaries orally and by written report; group presentations orally and by instrument development project; portfolio building; macro-teaching; singing-along ICT tools assembly patriotic songs and demonstration with music.

9. Course Assessment Components (of, for, and as learning)

Component 1 [PROJECT ASSESSMENT]: 30%

Documentary Analysis orally and written report by responding and connecting to physical activities and musical concepts; group present scope and sequence chart project and action research project.

CLOs 1, 2 & 3 (NTS 1a, 1d, 1e, 2c, d, e & f; NTECF 16,20,21,23,32,38,38 & 41)

NTS 1a Critically and collectively reflects to improve teaching and learning.
NTS 1d Is guided by legal and ethical teacher codes of conduct in his or her development as a professional teacher.
NTS 2c Has secure content knowledge, pedagogical knowledge and pedagogical content knowledge for the school and grade.
NTS 2d At pre-primary and primary the teacher knows the curriculum for the years appropriate to multi-grade classes; has good beginning reading and numeracy and speaking, listening, reading and writing, and to use at least one Ghanaian language;
NTS 2e Understands how children develop and learn in diverse contexts and applies this in his or her teaching.
NTS 2f Takes accounts of and respects learners’ cultural, linguistic, socio-economic and educational backgrounds in planning and teaching.

Component 2 [CONTINUOUS ASSESSMENT]: Portfolio Building and Practical Exams - 30%

Portfolio Building, Singing-along ICT tools assembly patriotic songs; Demonstration of fundamental movement patterns with music.

CLOs CLO5 (NTS 2e & f; NTECF 16)

NaCCA-PA, B1. 2.1.1.(1, 2 & 3) to B6. 2.1.1.(1, 2 & 3); B1. 2.2.2.(1, 2 & 3) to B6. 2.2.2.(1, 2 & 3); B1. 2.2.4.(1, 2 & 3) to B6. 2.2.4.(1, 2 & 3) & 3) and B1. 2.3.5.(1, 2 & 3) to B6. 2.3.5.(1, 2 & 3); B1. 2.4.6.1 to B6. 2.4.6.1 and B1. 2.4.7.1 to B6. 2.4.7.1.

NaCCA – PE : 2,3,4,5 B1 - B6

Component 3 [END OF SEMESTER EXAMINATION]: Written Examination 40%

CLOs 1, 2, 3, 4 & 5 (NTS 1a, 1d, 1e, 2c, d, e & f; NTECF 16,20,21,23,32,38,38 & 41)

NTS 3a Plans and delivers varied and challenging lessons, showing a clear grasp of the intended outcomes of their teaching.
NTS 3b Carries out small-scale action research to improve practice.
NTS 3c Creates a safe, encouraging learning environment.
NTS 3d Manages behaviour and learning with small and large classes.
NTS 3e Employs a variety of instructional strategies that encourages student participation and critical thinking.
NTS 3f Pays attention to all learners, especially girls and students with Special Educational Needs, ensuring their progress.
NTS 3g Employs instructional strategies appropriate for mixed ability, multilingual and multi-age classes.
NTS 3h Sets meaningful tasks that encourages learner collaboration and leads to purposeful learning.
NTS 3i Explains concepts clearly using examples familiar to students.
NTS 3j Produces and uses a variety of teaching and learning resources including ICT, to enhance learning.
NTS 3k Integrates a variety of assessment modes into teaching to support learning.
NTS 3l Listens to learners and gives constructive feedback.
NTS 3m Identifies and remediate learners’ difficulties or misconceptions, referring learners whose needs lie outside the competence.
NTS 3n Keeps meaningful records of every learner and communicates progress clearly to parents and learners.
NTS 3o Demonstrates awareness of national and school learning outcomes of learners.
NTS 3p Uses objective criterion referencing to assess learners.

<td></td>
</tr>
</tbody>
</table>

**Lesson description**
This course provides a reflection and synthesis of existing educational policies and legislative documents and establishes the appropriate connections for application of such policies and legislative documents in physical education.

**Previous student teacher knowledge, prior learning (assumed)**
Student teachers have knowledge in the intersection of Physical Education and Music & Dance.

**Possible barriers to learning in the lesson**
Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

**Lesson Delivery – chosen to support students in achieving the outcomes**
- Face-to-face
- Practical Activity
- Work-Based Learning
- Seminars
- Independent Study
- e-learning opportunities
- Practicum

**Lesson Delivery – main mode of delivery chosen to support students in achieving the learning outcomes.**

**Purpose for the lesson, what you want the students to achieve, serves as basis for the learning outcomes. An expanded version of the description. Write in full aspects of the NTS addressed.**

**Learning Outcomes**
- CLO1 Explore existing pre-tertiary PEMD policies, syllabi and legislative documents with attention to educational reforms, policies and trends pertaining to PEMD to B6. 2.4.6.1 and B1. 2.4.7.1 to B6. 2.4.7.1. NaCCA – PE: 1, 2,3,4 & 5 B1-B6 (NTS 2c & 2d, NTECF p16., & Early-years, Primary and JHS Music and Dance Syllabuses [EPJMDS])

**Learning Indicators**
- LI.1 Develop a catalogue of annotated descriptions of various educational reforms, existing policies and syllabi documents
- LI.2 Develop a scope and sequence chart for at least one specialism level syllabus
- LI.3 Audit and monitor syllabi for at least one specialism.

**Identify which cross-cutting issues - core and transferable skills, inclusivity, equity and addressing diversity. How will these be addressed or developed.**
- Assessment Skills, Social Skills, Communication Skills, Reflection and Honesty
- Critical Thinking and Problem Solving, Financial Literacy, Digital Literacy, Open-Mindedness
- Cultural and Civic Literacy, Innovation and Collaboration
- Gender issues; SEN (therapeutic);
- Adaptations for children with SEN
- Diversity and Inclusivity MD
- Information literacy,
- Ethical issues on Stereotyping in Music and PE (Please apply to all)

**Learning Outcomes for the lesson, picked and developed from the course specification. Learning indicators for each learning outcome**

### Lesson plan details

**Son description:**
This course provides a reflection and synthesis of existing educational policies and legislative documents and establishes the appropriate connections for application of such policies and legislative documents in music and dance.

- **Previous student teacher knowledge, prior learning assumed:**
  Student teachers have knowledge in the intersection of Physical Education and Music & Dance.

- **Possible barriers to learning in the lesson:**
  - Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

- **Lesson Delivery – chosen to support students in achieving the outcomes:**
  - Face-to-face
  - Practical Activity
  - Work-Based Learning
  - Seminars
  - Independent Study
  - e-Learning opportunities
  - Practicum

- **Lesson Delivery – main mode of delivery chosen to support students in achieving the learning outcomes:**
  Additional lesson delivery modes are listed below:
  - Class Discussion regarding existing pre-tertiary policy documents and syllabi
  - Small Groupwork to review existing education policies and sharing with colleagues
  - Documentary Video Analysis of teaching in Ghanaian basic schools
  - Group Work on syllabi
  - Independent Study on action research

### Purpose for the lesson, what you want the students to achieve

The purpose of this lesson is to reflect and synthesize existing educational policies and legislative documents and connect the existing educational policies to those in PEMD environment. Specifically, the purpose is to establish linkages to the PEMD policies and legislative documents.

### Learning Outcome for the lesson, picked and developed from the course specification

**Learning Indicators**

- **Identify which cross-cutting issues - core and transferable skills, inclusivity, equity and addressing diversity. How will these be addressed or developed.**
  - Assessment skills, social skills, communication skills, reflection and honesty.
  - Critical thinking and problem solving, financial literacy, digital literacy, open-mindedness
  - Cultural and civic literacy, innovation and collaboration
  - Gender issues; SEN (therapeutic); adaptations for children with SEN diversity and inclusivity MD
  - Information literacy,
  - Ethical issues on stereotyping in music and PE

### Teaching and learning activities to achieve learning outcomes: depending delivery mode selected. Teacher led, collaborative group work or independent study

ice, setting rules and routines for the class. Call three students at random to tell ‘TOLI’ very interesting laugh-of-laugh stories to the class.

Tutor then introduces student teachers to the three specialism (Early Years, Primary and JHS); the course manual for the semester; and the general expectations of the Analysis of Policy Documents and Syllabicourse.

Tutors give an overview of the lesson, assignments, e-learning resources on the internet. What is to be learned and how it will be learned.

Ask students to sit in their specialisms if the setting is appropriate to enable Tutor know them (i.e., their specialised areas and numbers.

### Class Discussion 1
Tutor tells students about the development of Music and Dance in schools to date:

- Trends in Global Music Education
- History of Music Education from the Gold Coast through 1987 Educational reform
- Curriculum Enrichment Programme
- Music and Dance Syllabus
- Arts and Cultural Festival for Schools
- Grants and Equipment for Music and Dance

Three students tell their TOLI to class as they laugh.

Students listen attentively, interact where necessary as Tutor tells them about the three specialism (Early Years, Primary and JHS); the course manual for the semester; and the general expectations of the Analysis of Policy Documents and Syllabicourse

Student teachers listen attentively and take notes.

Students sit in their specialisms if setting is appropriate to enable Tutor know them (i.e., their specialised areas and numbers.

### Class Discussion 1
| Stage 2 - 40 min | **Small Group Work:** Tutors assign student teachers to small groups and task small groups to review one policy and or legislative document on education.  
- The groups share their review as it pertains to purpose, objectives, vision and mission..... | **Small Group:** Student teachers engage a critical review and synthesis of the assigned policy document  
- Student teachers share review with sister small groups and examine the vision, mission, purpose and objectives |
| Stage 3 - 30 min | **Presentation:** As an extension to the small group work, tutors lead student teachers to present their work with the class | -Student teachers share their work from the small group work. Student teachers listen to group presentations and engage colleagues with questions, observation and comments. |
| Stage 4 - 90 min | **Reflection – Connection-Application and Closure.**  
**Reflection:** Tutors allow student teachers to think about what they have learned and allow them to express their "own" understanding.  
- Tutors help student teachers to examine the strengths/weakness, and available opportunities for PEMD.  
**Connection:** Tutors help student teachers to match what they have learned to real world in PEMD  
**Application:** Tutors help student teachers to think creatively in ways they can apply what they have learned to impact themselves, others or schools  
**Closure:** Tutors summarize the purpose of the lesson, assess the summaries of student teachers and reiterate the source(s) in the **Required References** for further exploratory exercise to facilitate understanding.  
- Tutors state the focus of the next lesson on Integrating PEMD at the KG Level and sets expectations for the next lesson.  
- Tutors provide independent e-learning  
**Independent Study:**  
Student teachers independently search the web to familiarize with additional and current references on the topic |

Physical Education

Music Education

CPD Needs  
a) Documentary Analysis
b) Organising Class Discussions (Panel, Symposia, Debate, etc.,)
**Title of Lesson**
Integrating Physical Education and Music & Dance at the KG Level

**Lesson Description**
This course provides a reflection on how Physical Education and Music & Dance at the KG Level have been integrated into the NaCCA KG syllabus. They will also be introduced to the processes to follow to conduct Case Study focusing on children’s learning and progress in PEMD NaCCA Syllabi.

**Previous student teacher knowledge, prior learning (assumed)**
Student teachers have knowledge in the intersection of Physical Education and Music & Dance.

**Possible barriers to learning in the lesson**
Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

**Lesson Delivery – chosen to support students in achieving the outcomes**
- Face-to-face
- Practical Activity
- Work-Based Learning
- Seminars
- Independent Study
- e-learning opportunities
- Practicum

**Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes.**
- Class Discussion regarding existing pre-tertiary policy documents and syllabi
- Small Group Work to review existing education policies and sharing with colleagues
- Documentary Video Analysis of teaching in Ghanaian basic schools
- Group Work on syllabi
- Independent Study on action research

**Purpose for the lesson, what you want the students to achieve, serves as basis for the learning outcomes. An expanded version of the description.**
- Write in full aspects of the NTS addressed
- The purpose of this lesson is to reflect and synthesize NaCCA KG syllabus. Specifically, it will develop a scope and sequence chart, develop a core cross-cutting indicator chart, build a teaching portfolio and carry out small-scale action research on impact of the new syllabus. Also they will explore the Content Standards and Sub-strands, annotation of the curriculum, and preparation towards STS. They will also be introduced to the processes to follow to conduct a Case Study focusing on children’s learning and progress in PEMD NaCCA Syllabi.

**Learning Outcome for the lesson, picked and developed from the course specification**
- CLO1 Demonstrate a comprehensive content knowledge in the NaCCA KG syllabus trends pertaining to PEMD.
  - to B6. 2.4.6.1 and B1. 2.4.7.1 to B6. 2.4.7.1.
  - NaCCA – PE: 1, 2, 3, 4 & 5 B1- B6 (NTS 2c & 2d, NTECF p16., & Early-years, Primary and JHS Music and Dance Syllabuses [EPJMDs])
- CLO 2 Demonstrate a comprehensive understanding of directed supported tasks for students during Supported Teaching in Schools (STS).

**Learning Indicators**
- LI.1 Develop a catalogue of annotated descriptions of various portions of the syllabus.
- LI.2 Develop a scope and sequence chart for at least one specialism level syllabus
- LI.3 Audit and monitor syllabi for at least one specialism.
- L.1 Undertake child study focusing on children’s learning and progress.

**Identify which cross-cutting issues - core and transferable skills, inclusivity, equity and addressing diversity. How will these addressed or developed.**
- Assessment skills, social skills, communication skills, reflection and honesty.
- Critical thinking and problem solving, financial literacy, digital literacy, open mindedness
- Cultural and civic literacy, innovation and collaboration
- Gender issues; SEN (therapeutic);
- Adaptations for children with SEN diversity and inclusivity MD
- Information literacy,
- Ethical issues on stereotyping in music and PE

Title of Lesson

B1-B6 NaCCA Curriculum for *Physical Education* I

Lesson description

This course provides a reflection on how B1-B6 NaCCA Curriculum for *Physical Education* can be integrated into the PEMD syllabus.

Previous student teacher knowledge, prior learning (assumed)

Student teachers have knowledge in the intersection of Physical Education and Music & Dance.

Possible barriers to learning in the lesson

Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

Lesson Delivery – chosen to support students in achieving the outcomes

- Face-to-face
- Practical Activity
- Work-Based Learning
- Seminars
- Independent Study
- e-learning opportunities
- Practicum

Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes.

- Additional lesson delivery modes are listed below:
  - Class Discussion regarding existing pre-tertiary policy documents and syllabi
  - Small Group Work to review existing education policies and sharing with colleagues
  - Documentary Video Analysis of teaching in Ghanaian basic schools
  - Group Work on syllabi
  - Independent Study on action research

- Purpose for the lesson, what you want the students to achieve, serves as basis for the learning outcomes. An expanded version of the description.
  - Write in full aspects of the NTS addressed

- Learning Outcome for the lesson, picked and developed from the course specification

- Learning indicators for each learning outcome

Additional lesson delivery modes are listed below:

- Class Discussion regarding existing pre-tertiary policy documents and syllabi
- Small Group Work to review existing education policies and sharing with colleagues
- Documentary Video Analysis of teaching in Ghanaian basic schools
- Group Work on syllabi
- Independent Study on action research

#### Purpose for the lesson, what you want the students to achieve, serves as basis for the learning outcomes. An expanded version of the description.

The purpose of this lesson is to reflect and synthesize how the NaCCA *Creative Arts* can be integrated into a PEMD syllabus. Specifically, it will develop a scope and sequence chart, develop a core cross-cutting indicator chart, build a teaching portfolio and carry out small-scale action research on impact of the new syllabus. Also they will explore the Content Standards and Sub-strands, annotation of the curriculum, and preparation towards STS

#### Learning Outcome for the lesson, picked and developed from the course specification

- CLO1 Demonstrate a comprehensive content knowledge in the NaCCA Basic 1-6 Creative Arts syllabus trends pertaining to PEMD.
- B6. 2.4.6.1 and B1. 2.4.7.1 to B6. 2.4.7.1.
- NaCCA – PE: 1, 2, 3, 4 & 5 B1- B6 (NTS 2c & 2d, NTECF p16., & Early-years, Primary and JHS Music and Dance Syllabuses [EPJMD])

Identify which cross-cutting issues - core and transferable skills, inclusivity, equity and addressing diversity. How will these be addressed or developed.

- Assessment skills, social skills, communication skills, reflection and honesty.
- critical thinking and problem solving, financial literacy, digital literacy, open-mindedness
- cultural and civic literacy, innovation and collaboration
- Gender issues; SEN (therapeutic);
- adaptations for children with SEN diversity and inclusivity MD
- information literacy,
- ethical issues on stereotyping

**Title of Lesson**

Physical Education and Creative Arts Curricula Integration I

**Lesson description**

This lesson provides a reflection on Creative Arts (CA) and Physical Education (PE) strands in the NaCCA basic school curriculum and helps student teachers to integrate the indicators/exemplars to address the core competencies including personal development and leadership, communication and collaboration, critical thinking and innovation, and creativity.

**Previous student teacher knowledge, prior learning (assumed)**

Student teachers have completed 2 lessons which focused on the general scope and sequence of the Physical Education and the Creative Arts curricula

**Possible barriers to learning in the lesson**

Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders. Lack of knowledge of integration of curricula content

**Lesson Delivery – chosen to support students in achieving the outcomes**

Lesson description

This lesson focuses on integration of Physical Education (PE) and Creative Arts (CA) strands in the NaCCA curriculum to facilitate planning and implementation of lesson plans that aim at learner acquisition of core competencies including personal development and leadership, communication and collaboration, critical thinking and innovation, and creativity.

Previous student teacher knowledge, prior learning (assumed)

Student teachers have completed 2 lessons which focused on the general scope and sequence of the Physical Education and Creative Arts curricula.

Student teachers have completed a lesson focused on the integration of PE and CA indicators/exemplars and the core competencies.

Possible barriers to learning in the lesson

Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders. Lack of knowledge of integration of curricula content.

Lesson Delivery – chosen to support students in achieving the outcomes

Ask students to sing some children songs sang at the Basic 1-3 level from Mereku’s *We Sing and Learn.*  
Tutors give an overview of the lesson, assignments, e-learning resources on the internet. What is to be learned and how it will be learned.  
Ask students to sit in their specialisms if the setting is appropriate to facilitate the lesson delivery. |
|               |           |            | **Student Teacher Activity**  
Students sing some Basic 1-3 level children songs from Mereku’s *We Sing and Learn.*  
Student teachers listen attentively and interact through questions and take notes.  
Students sit in their specialisms if setting is appropriate to facilitate the lesson delivery. |
|               |           |            | **Group Work**  
Tutor briefly discusses the following points:  
- The Tutor prepares three venues (i.e., for each specialism-Early Years, Primary & JHS) for the training environment to serve as a simulated classroom (identifying real students or preparing fellow participants to play the role of particular types of students, adjusting the training sight to approximate a local classroom, etc.)  
- Students go into their Small Groups (created during the previous lesson) and organise their lesson plans for the peer-teaching session and then fine tune them for subsequent micro-teaching with the entire specialism class.  
- A time limit is given for the length of the actual presentation.  
- An actual lesson is taught or skill or behaviour practiced by each participant while a few individuals or the rest of the group evaluates the performance.  
- The Tutor can specify particular behaviours to be evaluated or they can be requested beforehand by |
|               |           |            | **Group Work**  
Student teachers listen attentively and interact through questions and take note of the instructions being given and move into their groups. |
the participant (may use STS tools developed for lesson observation).

**f.** Feedback is then given and each participant by his/her peers and the Tutor. Peer evaluation can be oral and/or written.

**g.** When available and appropriate, videotape or audio recorders can be used to allow participants to actually witness their own performance. Personal evaluation and feedback can then precede peer and Tutor feedback. Students allowed to view or hear their own presentation may be better able to identify weak points and/or accept constructive criticism from others.

**h.** Upon receiving evaluations, students restructure their presentations and do a second micro-teaching presentation with altered behaviour to improve performance.

**i.** Re-evaluation is carried out as described in steps **f** and **g**.

**j.** Students give a presentation on what they have learned and how it will help them. Feedback by all is encouraged.

**Lesson description**

This course provides opportunities for student teachers to develop lessons using the integration of Creative Arts sub-strands realised in the previous lesson. Student teachers will practice micro-teaching in small groups after which they will do peer-teaching using their specialisms as laboratory classes (simulated classroom).

**Previous student teacher knowledge, prior learning (assumed)**

Student teachers have knowledge of the two separate Physical Education and Creative Arts NaCCA curricula. They have looked at motor skill and movement patterns; movement concepts, principles and strategies; physical fitness, physical fitness concepts, principles and strategies; values and psycho-social concepts, principles and strategies in the PE curriculum as well as teaching thinking & exploring lesson; teaching planning, making and composing lesson; teaching displaying, sharing and exhibiting, performing less teaching appreciating and appraising lesson; TLMS and facilities for performing arts in the Creative Arts curriculum.

**Possible barriers to learning in the lesson**

Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

**Lesson Delivery – chosen to support students in achieving the outcomes**

- Face-to-face [✓]
- Practical Activity [✓]
- Work-Based Learning
- Seminars
- Independent Study [✓]
- e-learning opportunities [✓]
- Practicum

**Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes.**

Additional lesson delivery modes are listed below:

- **Class Discussion** regarding NaCCA curricula for PE and Creative Arts for the three specialisms.
- **Small Group Work** to plan and develop lessons for micro- and peer-teaching.
- **Documentary Video Analysis** of student teachers teaching recorded.
- **Independent Study** on action research (Case Study in Schools).
The purpose of this lesson is to practice micro- and peer-teaching using lessons developed with the integration of PE and Creative Arts sub-strands. Student teachers will practice micro-teaching skills in small groups after which they will do peer-teaching using their specialisms as laboratory classes (simulated classroom). Student teachers will have the opportunity to receive feedback and then restructure their delivery and reteach.

**Title of Lesson**

Case Study focusing on children’s learning and progress in PEMD NaCCA Syllabi

**Lesson description**

This course provides opportunities for student teachers to reflect on the course by expressing what they thought they learned and then ask questions for clarification. Student teachers identify strengths and weaknesses of the policy documents reviewed and the NaCCA syllabi integration.

**Previous student teacher knowledge, prior learning (assumed)**

Student teachers have knowledge of the two separate Physical Education and Creative Arts NaCCA curricula. They have had sixty days of STS in schools and have conducted their case study focusing on children’s learning and progress in PEMD NaCCA Syllabi.

**Possible barriers to learning in the lesson**

Lack of knowledge about policy development, lack of understanding of the functions of Ministry of Education (policy development) and the Ghana Education Service (policy implementation) and other related stakeholders.

**Lesson Delivery – chosen to support students in achieving the outcomes**

<table>

<th>Seminars</th>
<th>Independent Study ☑</th>
<th>e-learning opportunities</th>
<th>Pract: ☑</th>
</tr>
</thead>
</table>

**Lesson Delivery – main mode of delivery chosen to support student teachers in achieving the learning outcomes.**

Additional lesson delivery modes are listed below:

- Class Discussion regarding NaCCA curricula for PE and Creative Arts for the three specialisms.
- Small Group Work to plan and develop lessons for micro- and peer-teaching.
- Documentary Video Analysis of student teachers teaching recorded.
- Independent Study on action research (Case Study in Schools)

**Purpose for the lesson, what you want the students to achieve, serves as basis for the learning outcomes. An expanded version of the description.**

- The purpose of this lesson is to reflect on the course by expressing what they thought they learned and then ask questions for clarification. Student teachers will identify strengths and weaknesses of the policy documents reviewed and the NaCCA syllabi integration and then write their case study report focusing on children’s learning and progress in PEMD NaCCA Syllabi.

**Learning Outcome for the lesson, picked and developed from the course specification**

- CLO1 Demonstrate a comprehensive content knowledge in the NaCCA KG/Primary/JHS syllabi trends pertaining to PEMD.
  - NaCCA – PE/Creative Arts: 1, 2,3,4 & 5 B1-B6
  - (NTS 2c & 2d, NTECF p16., & Early-years, Primary and JHS Music and Dance Syllabuses [EPJMDS])
- CLO 2 Demonstrate a comprehensive understanding of directedsupported tasks for students during Supported Teaching in Schools (STS).
  - (NTS, 1e), (NTS, 2a), (NTS, 1a),
- LI.1 Develop a catalogue of annotated descriptions of various portions of the syllabus.
- LI.2 Develop a scope and sequence chart for at least one specialism level syllabus
- LI.3 Audit and monitor syllabi for at least one specialism.
- LI.4 Undertake child study focusing on children’s learning and progress.
- LI.5 Produce a report on their case study focusing on children’s learning and progress in PEMD NaCCA Syllabi.

**Learning Indicators**

- Identify which cross-cutting core and transferable skills, inclusivity, equity and diversity. How will these be addressed or developed.
  - Assessment skills, so communication skills
  - Reflection and honesty
  - Critical thinking and problem solving, financial literacy
  - Digital literacy, open-mindedness
  - Cultural and civic literacy
  - Innovation and collaboration
  - Gender issues; SEN (therapeutic); adaptations for children with SEN diversity and inclusion
  - Information literacy
  - Ethical issues on stereotyping in PE
<p>| (NTS, 1f), (NTS, 1a, e, &amp; f), (NTS, 1d, 1f, 1g, &amp; 2a), (NTS, 2a), (NTS, 3b), (NTS, 1d, 1f, 1g, &amp; 2a), (NTS 2b, 2d), (NTS 2f) |</p>

</tr>
</tbody>
</table>
| | **Class Discussion** Tutor briefly discusses the following sub-headings for writing the case study report:  
  - Familiarisation with school environment and document/records  
  - Discussion of Basic school curriculum materials with Mentors during Observation  
  - Observation of classroom lesson presentation, management, and Assessment  
  - Observation of traits of teacher professionalism  
  - Discussion of Teaching Philosophy and Building Portfolio | **Class Discussion** Student teachers listen attentively and interact through questions and take note of the instructions being given and move into their groups. |
| Stage 2 - 40 min | **Supervisor Assignment & Submission Deadline:** Tutors assign Supervisors to the three specialisms-(Early Years, Primary & JHS) and agree on deadlines to submit reports. | **Supervisor Assignment & Submission Deadline:** Students are assigned Supervisors according to their various specialisms-(Early Years, Primary & JHS) and agree on deadlines to submit reports. |
| Stage 4 - 90 min | **Reflection – Connection-Application and Closure.** | |
### Reflection
- Tutors allow student teachers to think about what they have learned and allow them to express their “own” understanding.
- Tutors help student teachers to examine the strengths/weakness, and available opportunities for PEMD.

### Connection
- Tutors help student teachers to match what they have learned to real world in PEMD.

### Application
- Tutors help student teachers to think creatively in ways they can apply what they have learned to impact themselves, others or schools.

### Closure/Overall Summary
- Tutors summarize the purpose of the lesson, assess the summaries of student teachers and reiterate the source(s) in the Required References for further exploratory exercise to facilitate understanding.
- Tutors help student teachers to reflect on the course lesson topic/subtopics as a whole and help them to connect across topics/subtopics and the real world, as well as how they would apply what they have learned from the course to the real world.

### Required References
Students are asked to provide a reading list to their report.
